

LEAK DETECTION CHECKLIST

I'm Losing App. _____ Gals./Day
_____ Gals/Day Divided by 1440= _____ Gals/Min.

I'm Probably Looking for a _____ Water Service _____ Water Main Leak

Have I Done the Following:

- _____ Driven the Distribution System Looking for Flowing Water
(May See Steam from the Warmer Water in Cold Weather)
- _____ Checked Storage Tanks for Overflows (Even Intermittent)
- _____ Checked All Vacant Buildings
- _____ Checked Any Unmetered Services
- _____ Checked Services of Any Known Vacationing Consumers
- _____ Checked Service Lines that Are **SUPPOSED** to be Off
- _____ Checked Sewer Lines and Tiles for Increased Flow
- _____ Checked Flowing Water for Chlorine and/or Fluoride Levels
- _____ Checked Customer Complaints of Hearing Running Water
- _____ Checked Fire Hydrants for Noise (Especially if Hydrants have Recently Been Flushed or Used for Fire-Fighting Purposes)
- _____ Asked the Public to Notify You of "Wet Spots" or Running Water
- _____ Checked any Creek Crossings
- _____ Checked Homes that Also have Private Wells (I Know What You're Going to Say!)
- _____ Checked Meter Readings for High Usage
