

## **Advanced Drinking Water Operations Class A and B**

This course covers a majority of the significant procedures and concepts related to the operation and maintenance of Illinois Class A and Class B public water supply operations, and will prepare students for the Class A and Class B water operators' IL EPA exam and certification. Students must meet specific experience, education, and examination requirements in order to qualify for certification. If you have not taken Beginning Drinking Water Class C and D, it is highly recommended you take it before taking the Advanced Drinking Water class.

### **Topics include:**

- Disinfection
- Fluoridation
- Distribution
- Clarification
- Lime-Soda Softening
- Ion Exchange Softening
- Filtration
- Iron & Manganese Control

**Instructors:** Jason Upton, Jared Barber, and Bob Bohannon
