

Beginning Drinking Water Class C and D

If you are beginning a career in the water field, this class will prepare you for certification testing as a Class C and D Public Water Supply Operator. This class will also serve as continuing education credits for Class A and B certificate holders.

Topics include:

- Well and distribution system operation and maintenance
- Basic water flow hydraulics
- Chemical dosage mathematics
- Environmental Protection Agency laws
- Chlorination and fluoridation

Following class, students are responsible for scheduling their own exam for the Drinking Water Operator Certificate through the Illinois EPA.
