

WASTEWATER TECHNICIAN NEEDED!

IRWA is now accepting resumes for the position of Wastewater Technician. This position will have an immediate start date. The successful candidate will be responsible for servicing the needs of small system (< 10,000 population) wastewater plants in the northern half of Illinois.

Requirements for this position include:

1. Multiyear employment (5 years' experience preferred) in working for, operating, maintaining, or managing a rural/community water/wastewater system.
2. A well-rounded technical knowledge of rural and small system needs and methods of meeting those needs.
3. Technical knowledge of operating, maintaining, and managing a rural/community water/wastewater system.
4. Knowledge of the financial, managerial and operational characteristics of effectively run utility systems.
5. Ability to communicate effectively, orally and in writing, with operators, decision makers, regulatory agencies and other professionals.
6. Ability to identify and describe financial, managerial and operational issues to field personnel and decision makers.
7. Knowledge and understanding of regulations, monitoring, and reporting requirements.
8. Willingness to travel extensively.
9. Must live North of I 74.

As a full-time employee you will qualify for health, life, dental and vision insurance, 401k retirement plan, and company vehicle. IRWA is an equal-opportunity employer. Salary Commensurate to experience.

If you wish to apply, please send resume (along with salary history) to Frank Dunmire, Illinois Rural Water Association, PO Box 49, Taylorville, IL 62568. If you have any questions about the position, you may call Frank at 217-287-2115. Resumes must be received by April 1st, 2017.
