APPENDIX A School and Childcare Facility Testing Timeline

This appendix shows a condensed view of the overall timeline of the school and childcare facility testing

Elementary School and Child Care Facility Sampling Timeline

Starting in 2025, repeating every year for five years or until all elementary schools and Child Care facilities have been tested.

- 1.) Contact all elementary, middle, and high schools in addition to all child care facilities to provide information about health risks from lead in drinking water.
- 2.) Provide a notice to all elementary schools and child care facilities that the CWS must sample for lead at their locations. This notice must contain:
 - a. A proposed schedule for sampling at the facility
 - b. Information about sampling for lead in schools and child care facilities
 - c. Instructions for sampling outlets and preparing for a sampling event 30 days prior to the event.
- 3.) Sample from at least 20% of all elementary schools and 20% of all registered child care facilities in the CWS distribution system.
- 4.) Contact all middle and high schools in the CWS distribution system to provide information on how to request lead sampling from the CWS.
- 5.) Sample from any middle or high school upon request. The CWS is not required to test more than 20% of its middle or high schools annually.
- 6.) Provide Results of any school or child care facility testing back to the school or child care facility tested within 30 days.
- 7.) By July 1st each year the certification for the previous years sampling and education outreach should be submitted.

2030 and every year after.

CWS should have completed the required sampling for elementary schools and Child care facilities. Sampling will be upon request after the required sampling is complete.

- 1.) Each CWS must contact each school and child care facility in its distribution system annually to provide:
 - a. Information about health risks from lead in drinking water.
 - b. Information about how to request sampling for lead at the school or child care facility
