

IRWA/Training Session Invitation

August 12, 2024 — Genoa, Illinois, DeKalb County

Genoa Public Works

100 Madison Street

Genoa, IL 60135

Illinois Rural Water Association, with funding from the U.S. EPA, through a partnership with NRWA, is conducting this no cost training program. This seminar features the Stenner Mobile Training Van, a mobile classroom that affords students a hands-on learning experience. Students will also have the opportunity to become a “Certified Stenner Technician” during the seminar.

From 9am –11pm you will earn 2 hours of dual credit and operator certification renewal credits.

This training is designed for municipal water and wastewater superintendents, rural water district and municipal operators and managers, and governing body members of water or wastewater systems who utilize chemical pumps.

This is an at-no-charge training program!

Please RSVP to Kent Cox at 309-333-4069, cox@ilrwa.org by August 2, 2024.

This training session is limited to 20 participants.

8:30—9:00 Registration

9:00—11:00 Certified Stenner Technician training - During his presentation Mike Pontrelli will conduct CST (Certified Stenner Technician). The training will provide an overview of peristaltic pumps, and history and applications for peristaltic pumps. The training will cover the basic maintenance and repair for Stenner Classic Series, Econ series, and S-Series pumps. This hands-on training class will cover basic repair that will allow customers to easily repair peristaltic pumps with minimal cost.

11:00 Adjournment
